**Re: Edw. C. Levy, Co**

To whom it may concern:

Levy Indiana Slag Co. and American Aggregates of Michigan, Inc. have owned and operated a gravel mining facility on approximately 830 acres in Highland Township for over 15 years. This is a highly productive site, providing aggregate products to customers throughout the region. The site is well managed and maintained by a professional and conscientious staff.

When Levy acquired this site, they inherited a number of community benefit obligations that the previous operator had agreed to. Levy has always strived to honor these obligations and to operate within the parameters of their permit. We find their management team responds swiftly with appropriate action to address any concerns that may arise. We have worked hard together to develop a good working relationship and have valued their partnership in a variety of projects. Highland Township considers the Edw. C. Levy Co to be a good corporate citizen.

Please feel free to contact me at 248-887-3791 x.6, if I can provide you any other information regarding Edw. C. Levy, Co. and American Aggregates of Michigan, Inc.

Sincerely,

Rick Hamill  
Highland Township Supervisor
